CEDAR KEY 10-30-19

Leader: Barb Gay

16 birders enjoyed our fall trip to Cedar Key on a very hot and humid day with temp. around 90 and humidity about the same. We saw or heard 68 species a good number for October. The tide was extremely low and many of the shore birds were a long way out. Thanks to Paul for the pictures and the surprise Whimbrel which I haven't seen in a long time, what a treat. Missing were American Avocets usually seen on this trip but with the tide so low they could have been elsewhere. Great showing of Bald Eagles with many seen. Always great to get to the Gulf to bird. Thanks for all the good spotting.

Bird checklist attached.

Stop, Look and Listen,

Barb Gay
