Thank you to my Co-Leader Tammy Martin and the birders who participated in today's drive into the Ocala National Forest for the Florida Scrub Jay. The weather started out at 60 degrees, partly cloudy and ended at 77 degrees with some clouds and sun. Highlights were a total of 12 Florida Scrub Jays, found in four different locations, a cooperative Eastern Towhee, no wrong turns on the drive, and a Gopher Tortoise waving us goodbye as we exited the forest.

Below is the list of the birds identified on eBird Checklist # 212219419.
