[the-village-birders] Fort DeSoto Birding

To: Village Birders <The-Village-Birders@googlegroups.com>

Reply-To: Bob Cole

The Village Birds went to Ft Desoto for a bird outing, and I had a great time. I Love that we get to have forest birds and shore birds all in the same area. I didn't get there until 1 o'clock on Wed, I set up camp and went to the beach for some sunshine. That evening, I had two Yellow Crowned Night Herons share my site. I was so enamored I forgot to get a picture before they left at dusk. The club met at the flagpole at 8 am Thursday and "birded" until 1 o'clock Thursday. I have attached some images, but my favorite is the Veery. I haven't ever seen a Veery in Florida, but we had them in the forest in Connecticut. I love these little guys and their call is stunning.
